THE MOURATOGLOU ACADEMY

A PLACE OF EXCELLENCE.

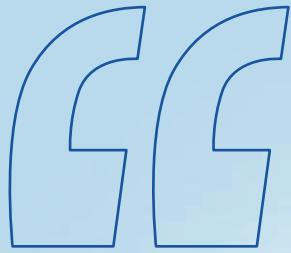

With more than 320 days of sunshine per year and 12 hectares of cutting-edge sports infrastructure, the Mouratoglou Academy is one of the world's most renowned destinations for the practice of intensive outdoor tennis all year long.

BETWEEN NICE & CANNES

**15 MIN FROM NICE
INTERNATIONAL AIRPORT**

LOCATED IN SOPHIA ANTIPOLIS

We all want our children to be well prepared for the future; we want to provide them with an enhanced educational system to complement that of their parents. This will equip them with all the necessary tools to live their lives to the fullest.

Since its inception in 1996, the Mouratoglou Academy has been developing a precursor school system that has proven to be extremely efficient.

Tennis is truly a «school of life». It teaches us humility, hard work, perseverance and self-awareness. To me, it is much more than making grand speeches. In fact, it offers a unique experience which allows each student-athlete to display their true worth.

With small class sizes, individualized attention, a practical teaching style to better understand theory, learning and mastering foreign languages, living among fellow student-athletes from 40 different nationalities and dedicated teachers, we can say with certainty that our children will be ready for the future.

At the end of the year, when I attend the graduation ceremony and listen to our graduates' speeches, I find myself completely awestruck by their sense of humour, their maturity, their intellect and their self-confidence. I tell myself that I would have been unable to do the same at their age. Furthermore, a teenager who is able to speak confidently in public is well armed to face the future.

At the Mouratoglou Academy, we have for over twenty years given equal importance to both tennis and school. We embrace our responsibility:
Preparing your children for the future - This is our commitment!

THE BOARDING HOUSE STAFF IS KIND, FRIENDLY, COMMITTED AND ALWAYS DEPENDABLE.

ACTIVITIES

Our students spend 9 months at the Academy, working hard in class as well as on court. They have spare time in the evening and during week-ends which can be used to enjoy activities organized directly by our staff, on and off campus. Our region is beautiful and students have many opportunities to enjoy seasonal activities.

INTEGRATION CAMPS

The first 2 days of the Academy are dedicated to the integration boot camp. During 2 days, all players and coaches live on a bivouac located 30 kilometers from the Academy, in the heart of the French Alps. The camp includes hiking, races, physical tests, and this is an opportunity to create social cohesion between everyone.

ACTIVITIES ON CAMPUS

Players have access to the game room (pool, table tennis, TV), the theatre room and can participate in artistic and sport workshops. With permission, they are also given access to the swimming pool, the athletic track, the padel courts and the multisports area (football, basketball, handball, volleyball).

ACTIVITIES OFF CAMPUS

WINTER ACTIVITIES

Hiking, mountain biking, cultural visit and shopping in Cannes or Nice.

SUMMER ACTIVITIES

Beach and lake nautic activities, mountain biking.

A WORD OF OUR MENTOR

GG

It means the world to me, that I can be in that position as a role model and mentor for our student-athletes. It's great for the younger generation to be inspired by the top players, that's what I had as a kid. It's also very nice for them to have someone that they can look up to and feel like they can reach that level one day.

I think it's great having such a safe environment for the kids at the Academy. I think that education is very important if not more important than tennis and it allows them to have a bright future ahead with nothing to worry about. The system at Mouratoglou provides this environment and allows kids to pursue both their tennis and their studies.

SCHOLARSHIP USA

To go and study in the United States is a once-in-a-lifetime experience for any player aiming to combine high-level tennis with an adapted university curriculum. Our 'Scholarship USA' program allows you to obtain a degree recognized worldwide while spending up to 4 years abroad — a feat that will give you a competitive edge in your professional career.

Every year, more than 60 students from the Mouratoglou Academy are granted a scholarship in an American university. Their scholarships cover an average 85% of the total fees. Given the significant tuition fees of American universities (\$35,000 on average), our students are able to save a staggering \$29,800 per year.

College sports hold significant importance in the United States. The American university system allows students to combine their education schedule with a sports program. The varsity athletes represent their university through college tennis.

As a matter of fact, some of the top-notch universities have players close to professional level in their rosters, and it is common to see some of them make it to the ATP Tour. Kevin Anderson, the 2017 U.S. Open and 2018 Wimbledon runner-up, has played three years of college tennis at the University of Illinois before turning professional; James Blake, a former top 10 player, has spent two years at the Harvard University.
