ACADEMY

TENNIS & SCHOOL

“

We all want our children to be well prepared for the future; we want to provide them with an enhanced educational system to complement that of their parents. This will equip them with all the necessary tools to live their lives to the fullest.

Since its inception in 1996, the Mouratoglou Academy has been developing a precursor school system that has proven to be extremely efficient.

Tennis is truly a «school of life». It teaches us humility, hard work, perseverance and self-awareness. To me, it is much more than making grand speeches. In fact, it offers a unique experience which allows each student-athlete to display their true worth.

With small class sizes, individualized attention, a practical teaching style to better understand theory, learning and mastering foreign languages, living among fellow student-athletes from 45 different nationalities and dedicated teachers, we can say with certainty that our student athletes will be ready for the future.

At the end of the year, when I attend the graduation ceremony and listen to our graduates' speeches, I find myself completely impressed by their sense of humor, their maturity, their intellect and their self-confidence. I tell myself that I would have been unable to do the same at their age. Furthermore, a teenager who is able to speak confidently in public is well armed to face the future.

At the Mouratoglou Academy, we have for over twenty years given equal importance to both tennis and school. We embrace our responsibility: preparing your children for the future - This is our commitment!

A WORD FROM OUR MENTOR

“

It means the world to me, that I can be in that position as a role model and mentor for our student-athletes. It's great for the younger generation to be inspired by the top players, that's what I had as a kid. It's also very nice for them to have someone that they can look up to and feel like they can reach that level one day.

I think it's great having such a safe environment for the kids at the Academy. I think that education is very important if not more important than tennis and it allows them to have a bright future ahead with nothing to worry about. The system at Mouratoglou provides this environment and allows kids to pursue both their tennis and their studies.

SCHOOL PROGRAM PRESENTATION

SAT®: On average, over 60% test takers score above the 75th Nationally Representative Percentile

90% graduating students receive a scholarship to attend a US University

AP® Exams: Over 90% of our students earn scores of 4 or 5 on Advanced Placement Exams

Successful placement of students in UK and European Universities

At the academy, school and tennis are given equal value. Our pedagogical team understands the problems and difficulties of combining school and competition and accompanies students to achieve excellence.

- > *Small classes (maximum 15 students per class).*
- > *An experienced team of teachers that adapts and accommodates to the demands of an intense school/tennis program*
- > *Adapted school schedules to fully benefit from the tennis and school program*
- > *Each student's unique project is built cohesively between the student, the parents and the teachers*
- > *Perfect environment (45 different nationalities) for learning English and French and developing intercultural communication skills*
- > *Supervised nightly study*
- > *SAT® testing center*
- > *AP® classes and courses*

This is our 6th year at the Mouratoglou Academy with our children. We believe that the academy has achieved a perfect blend of tennis and school by creating a merged system of academic and tennis education. The school works with the tennis side in remarkable harmony. Being in a place where our kids' tennis and academic careers are in good hands, we are happy of the choice we have made.

Patrick Mouratoglou saw his dream of turning professional shattered when he was young. This is what drove him to start his academy and create a lifetime tennis & school project that has been helping thousands of youngsters achieve their own dreams for more than twenty years.

Whether they are pursuing their plan to become a professional player or obtaining a scholarship at an American university, we ensure that our players shape themselves as athletes.

SPORTS PROGRAM

YEARLY TRAINING PLAN

Our tennis & school program combines sports with studies at the highest level.

PROJECT OF A LIFETIME

2 hours 30 minutes - 3 hours of tennis and 1 hour 30 minutes of fitness per day, the Tennis and School program is just as complete and demanding as that of our Elite Team: the requirements are as high as our professional players.

In addition, each player has a package of 18 hours of individual coaching lessons per year (tennis or fitness).

CARDIO

The analysis of the tests carried out make it possible to determine the profile of each player and to set up a program meeting the needs of each. Strengthening physical qualities, developing potential and preventing injuries are the daily tasks.

RECOVERY PROTOCOL

A UNIQUE STRUCTURE FOR OPTIMAL MEDICAL COVERAGE

Located within an exceptional infrastructure, including the latest technology, student-athletes are free to consult with medical professionals (specialists, physiotherapists, and osteopaths) throughout the year in order to heal and prevent injury in our sports medical center.

- > Recovery protocols one afternoon per week (mobility workshops, injury prevention, stretching ...)
- > Recovery massage and osteopathy sessions: optional
- > Immersion pools for better recovery

REHABILITATION SECTION

When a player is injured he integrates the rehabilitation section where he can benefit from tennis and fitness sessions adapted to his physical conditions.

In permanent link with the medical sports center, this protocol allows a progressive resumption of the game and allows an optimal accompaniment.

TOURNAMENTS

The Academy offers a full calendar including regional FFT competitions, monitoring international competitions: **Tennis Europe, ITF competitions, ATP & WTA tournaments** and **UTR tournaments**. We adapt the program to the level of the player and his/her behavior.

> **12-15 tournaments per year** (in the region)

> **4-6 Tournaments UTR per year :**

Universal Tennis Rating (UTR) is a very reliable international ranking. Players from all over the world and all levels are referenced in it. UTR allows better supervision of the performance of our players.

> **Tournois internationaux ITF, Tennis Europe** (depending on the level of the player)

> **Summer Tour :**

7/8 tournaments (2 tournaments per week)

SUPERVISION

Student-Athletes are accompanied and supervised throughout the year on tournaments. Seeing and encouraging children in competition is a fundamental element for coaches and for the work they do together. They prepare the matches and debrief the performance.

REPORTS

The daily program is sent to students, as well as feedback from matches, also sent to parents.

TENNIS & SCHOOL COURSE

SUMMER SCHOOL

A UNIQUE SUMMER PROGRAM

During summer, we give our students the possibility to continue their studies and earn high school credit. Whether you want your child to catch up on studies or simply continue a school routine during the vacation, we are here to help you.

Additionally, your child can combine up to four hours of classes along with tennis & physical training throughout the day.

SCHEDULE

> 4 weeks

SUBJECTS

> English, Math, and Social Studies

PROGRAMS

- > Summer school only (2 hours daily per class - 10 or 20 hours of class per week)

- > Summer School with half-day tennis camp (possibility of accommodation)

GRADUATION CEREMONY

THE CLIMAX OF THE YEAR

At the end of each school year, around mid-June, the Mouratoglou Academy hosts its annual end of year ceremony for both the American and French schools.

The focus of this ceremony is to celebrate the students receiving diplomas, but it is also an occasion that brings together students, alumni, parents, teachers, coaches and the entire Mouratoglou Academy to share a special and emotional moment.

SCHOLARSHIP USA

To go and study in the United States is a unique experience in the life of a player who wishes to combine high-level tennis and an adapted university course.

Our 'Scholarship USA' program allows you to obtain a degree recognized worldwide while spending up to 4 years abroad - a feat that will give you a competitive edge in your professional career. College sports hold significant importance in the United States. The American university system allows students to combine their schedule with an intensive sports program. The varsity athletes represent their university through college tennis.

Every year, more than 50 students from the Mouratoglou Academy benefit from suitable support in their research for an American University. Our placement coordinator advises and guides students in all their administrative procedures, according to their personal goals.

With a network of more than 1,000 universities in all divisions, and the most prestigious universities, students are supported to choose the best establishment to pursue and perfect their academic course.

As a matter of fact, some of the top-notch universities have players close to professional level in their rosters, and it is common to see some of them make it to the ATP Tour. Kevin Anderson, the 2017 U.S. Open and 2018 Wimbledon runner-up, has played three years of college tennis at the University of Illinois before turning professional; James Blake, a former top 10 player, has spent two years at the Harvard University.

We support each other not only on the court, but in daily decisions. We are a strong family that are fighting, not as individual players, but as a team. I love that in college tennis we are always loud. We are shouting, we are screaming, we are cheering, and I never thought it could be that loud on the tennis matches. I love it

“ Mouratoglou International School gave me the opportunity to pursue a high quality education. I was taught to challenge myself and I realized the importance of knowledge in this world. Before I came to study here, I was a little girl from a small village in Italy who did not have a clear perspective of the world. After these three years and thanks to the support of my teachers and staff, I now have a more concrete idea of what I want to achieve. I am now in the United States, where I continue to live my dreams, and it is largely thanks to them.

BOARDING HOUSE

WELCOME HOME

We want everyone to feel at home when they walk through the doors of the boarding house.

Our staff will welcome your child in a very warm-hearted and family-like atmosphere. We want each child to feel at home from the minute they walk through the doors of the boarding house. The role of the boarding house staff is to listen and reassure both boarders and parents. Their role is also to guide your child in finding balance between work, discipline, rigor, and fun within a warm and family environment.

Everything has been set in place and is available to meet your child's needs. Security and comfort are omnipresent within the boarding house structure: on-site staff 24 hours a day, security camera surveillance, high-speed Internet and air-conditioned rooms.

The Mouratoglou Campus gathers youngsters from more than 45 different nationalities. Athletes are immersed in English and French, giving them a genuine window on the world. At the Academy, we don't only shape champions on the court, but also great, independent and well-rounded human beings.
